A GIFT FROM THE STARS.

By ERROLD DRAKE.

A LONG time ago, when the stars ruled on high,
A great many wonders were seen in the sky.
There were tables of blue, there were couches of gold,
And shelves of deep crimson, and colours untold;
There were floors black and shining, and walls white as snow,
And many more things that I really don't know.
Now said Venus to Saturn, said Saturn to Mars,
"I really *do* think we *are* greedy old stars;
For we have a secret that no one does know:
Let us share with the mortals who live down below!"
So they took the great secret, tacked it on to a spear,
Tied up in a thing that we call an 'idea;"
Then dropped it right down on the top of a man,
Who, despairing, was painting a hot-water can.
The spear it struck home, the idea was unfurled,
And now the great wonder is known to the world:
Is carried by train, is carried by boat;
Is known to all people, on land or afloat;
Is carried by horse, is carried by camel;
And this is its name—"ASPINALL'S ENAMEL!"

CICERO.

SUNDAY, MAY 8, 1892.

TELEGRAMS

(via Galveston.)

Rome, 7th—King Humbert has as yet decided nothing in regard to the resignation tendered by his Ministers. His Majesty appears undecided as to what attitude he will assume. All the papers have lengthy articles commenting on the Cabinet crisis, and some papers hint at the probable dissolution of Parliament as an imperious necessity in the present situation. The Rudini Cabinet fell in spite of the Government's intention to reduce the army and navy expenditure. It is proved that the financial "malaise" of Italy is due to her efforts to keep her place in the Triple Alliance. The situation is very critical.

Paris, 7th—Commenting on the Cabinet crisis in Italy, the papers here express satisfaction, as they consider it as a sign of the probable breaking-up of the Triple Alliance. The *Figaro* says that King Humbert must either disarm the army or declare the country bankrupt. The *Gaulois* regards the situation as a triumph of the Vatican.

Liége, 7th—Another dynamite explosion occurred this morning in the Chateau Lombron, the residence of the Mayor of Fleurus. No person was injured.

Berlin, 7th—The *Tagblatt* publishes the news of Emin Pasha's death.

Naples, 7th—A shock of earthquake has been felt in Potenza. So far no serious damage reported.

Paris, 7th—A man named Zodrat attempted to kill the Minister of Justice to-day. It appears that the Minister had refused to cancel a fine imposed on him. The sentinel at the Minister's door was dangerously wounded.

Simon and Matheu, Ravachol's accomplices, were found guilty to-day of receiving stolen goods and sentenced to five years' imprisonment.

London, 7th—The proposed visits of the Czar and the King of Italy to Germany have been postponed for several months. The Czar's visit was connected with the proposed marriage of the Czarevitch with the Princess Margaret of Prussia.

Madrid, 7th—The negotiations for a commercial treaty between Spain and England have been suspended. Those for similar treaties with other Powers are going on slowly.

Frankfort, 6th—It is known here that Jaeger, Rothschild's cashier, who fled recently, has embarked in New South Wales for Colombo, Ceylon.

Brussels, 7th—In spite of all the precautions taken by the police, a cartridge charged with powder, which did not explode, was found this afternoon in the residence of Baron Seriphon. The fuse had not been lighted. The people are greatly alarmed.

London, 7th—Baron Hirsch's La Fleche won the Thousand Guineas at Newmarket yesterday.

"THE UNLOADER."

NEW ENGLISH DAILY PAPER.

The public of Buenos Ayres is here by notified that a first-class morning paper will shortly be issued under the above title. The editorial staff will be composed of men of rare ability and experience, and the Directors will spare no effort to make their journal worthy of its name and the objects in view. These objects may be briefly expressed as follows:—

1. To enlighten the British public on the real value of all manner of Argentine, Uruguayan and other River Plate securities.

2. To keep up the quotations of these securities by every honorable means possible.

3. To promote the "unloading" of such securities on the British Public.

We intend also to give special attention to Cedulas, Bateman legacies, and everything connected with the Moratorium loan.

We shall have financial articles daily on the above matters, and a special Packet Edition for every steamer that leaves for Europe. We count upon the co-operation of one of the best-known papers in London to promote our views, and feel confident of success.

Hitherto our efforts to induce the British public to buy River Plate stocks have wholly failed because we had no organ in Buenos Ayres to further our propaganda. Hence the absolute necessity of a paper in the Argentine metropolis to do our work efficiently.

It is of course essential that £8,000,000 of River Plate securities be "unloaded" before December 31st 1893. Meantime we hereby offer to give shares of our paper in exchange for stocks at this rate.

MUNICIPAL FINANCES.

It is evident that the system of finances which has been followed in our city during the last five years cannot continue much longer without causing the utmost confusion. We must either reduce expenditure or devise new taxes, and it is time for citizens to make up their minds as to which of these courses is the more feasible.

The receipts from municipal taxes and the expenditure in 5 years ending Dec. 1891, according to the official report published last week, were as follows—

	$
Receipts	31,220,000
Expenditure ...	70,620,000
Deficit	39,400,000

The deficit appears to have been met in the following manner—

	$
Loan of 1891...	21,900,000
Bills etc.....	17,500,000
Total....	39,400,000

The revenue in the said 5 years was made up thus:—

	$ currency	Ann. average $
Gen. tax....	6,240,000	1,248,000
Licenses....	9,480,000	1,896,000
Market dues	5,940,000	1,188,000
Tramway "	1,150,000	230,000
Sundries.....	8,410,000	1,682,000
Total....	31,220,000	6,244,000

Thus the municipal taxes so called represent 12$ per inhabitant, and if this were all we should consider them light enough. But we have also the Water-tax, which the late Nat. Finance Minister, Dr. Lopez, says must be made to produce 2,000,000$ gold, say 6,600,000$ currency, a sum in excess of the gross product of all municipal taxes in the aggregate. Moreover the National Government, according to the Budget for 1892, draws 2,800,000$ from Licenses and Property-tax levied in the city. This brings up the city taxes to a total of 15,640,000$ or about 30$ per head of the population.

The municipal expenditure of the last five years was as follows:—

	$ currency	Ann. average
Lights.....	2,950,000	590,000
Scavengers.	4,700,000	940,000
Hospitals &c	5,720,000	1,140,000
Sundries....	57,250,000	11,450,000
Total.....	70,620,000	14,120,000

We should like to know how sundries are made up, but the accounts before us throw no light on so important a point. Perhaps the item would be found to resolve itself in this manner:—

	$
Boulevard.....	20,000,000
Paving and fountains..	20,000,000
Service of debt.....	17,250,000
Total.....	57,250,000

Whether this surmise be correct or not we find the remarkable fact that the three most important items of municipal service have only cost $2,600,000 per annum, whereas the undigested item of "sundries" has absorbed 11,450,000 per annum.

Until we have evidence to the contrary, there is every reason to suppose that a sum of forty millions has been spent on public works, which were in a great measure unnecessary. This is confirmed by the estimates in the Municipal budget for 1889, which was made up thus:

	$
Lighting	650,000
Scavengers.....	870,000
Hospitals, &c.....	1,520,000
Public works.....	8,350,000
Sundries.....	4,200,000
Total.....	15,590,000

As a matter of fact, the expenditure in 1889 was nearly double the estimates, as we see by the table before us, viz.:

	Income. $	Expenditure. $
1887...	5,100,000	10,060,000
1888..	5,050,000	14,780,000
1889..	7,060,000	25,770,000
1890...	6,860,000	11,950,000
1891..	7,150,000	8,060,000
5 years	31,220,000	70,620,000

The estimates of expenditure for the current year are 8,870,000$, and we doubt very much that the revenue will exceed what it was last year; there appears, therefore, every probability of a large deficit. Meantime the municipal debt is piling up fast, amounting at present to:—

	£ stg. =	$ currency.
London loan	2,000,000	33,000,000
Internal.....	..	49,750,000
Total....		82,750,000

This debt now amounts to 150$ per inhabitant, irrespective of the Bateman Legacy, the interest on which has to be borne by the citizens, and the capital of which is 100,000,000$ currency. So that, in reality, we have a city debt of 183 millions or $340 per inhabitant.

Under these circumstances it is advisable to pay strict attention to the municipal finances, and, if we cannot remedy the follies of the past, at least do our best to put things on a better footing.

EDUCATIONAL REFORM.

Inspector Santiago H. Fitz-Simon has laid before Government an interesting report, in which he urges several important reforms. We extract as follows from this report: "Our national colleges are preparatory schools for our universities. In 1863 a college was founded in Buenos Ayres "to afford greater facilities for the youth of the provinces to embrace literary-scientific careers." This was during General Mitre's government and the well-known educationist Amadee Jacques was entrusted with the task of drawing up the curriculum. He took for his model the French Lycée. The same model was adopted for other colleges founded by Governments in the provinces.

"Since 1863 the curriculum has been modified nine times, but the same system prevails, and the same end is kept in view, although decrees have been issued declaring the contrary. The new curriculum has no greater defects than its predecessors. It is more advantageous to the partisans of classics. More time and importance are given to Latin, while mathematics and natural sciences are given a smaller space. There can be no doubt that the country should have some colleges where young men, who desire it and have means, may study for the universities. But when we see that the state supports 16 institutions of this kind, where education is gratuitous, it must be admitted that the number is in excess of our requirements. This luxury costs the country a good deal, not only on account of the money spent but also on account of the negative results. I say negative, because the ambition of each boy is to become a doctor. Not one thinks of embracing agriculture, commerce or industry. The present system of education is accountable for the desertion of the fields of labor. And the evil will continue. Every year the battalions of bachelors and doctors will increase until the Government says; Enough! If all the new doctors were men of fortune, the evil to the country would not be so great. But this is not the case, and these young men who look with disdain on the honorable callings of commerce and agriculture, often have no means of gaining their livelihood. They have nothing but their degrees. They have no habits of work. Unfortunately they are protected by governments.

"According to official returns, the state spends half a million dollars yearly in university education. I have the greatest respect for university education, but I must confess that the circumstance of its being gratuitous attracts a considerable number of young men who would be of benefit to their country in other walks of life. Since we have a superabundance of lawyers and medical doctors, why not oblige students to pay for their own education?

"In our present curriculum Latin is a compulsory branch from the second to the fifth year inclusively. During the first year there are five lessons weekly, in the second, third and fourth four, in combination with history and literature in the fourth year. Why is so much importance attached to the study of a dead language, particularly when the Committee appointed to report on the curriculum urges its suppression? The reason for maintaining the study of Latin, according to the authors of the curriculum is connected with the sociological conditions of the country—"the current of immigration is so strong that it may absorb our ethnical elements, which are already undergoing a change visible in our language, our practical institutions, our tastes and our traditional ideas." I cannot see how the study of Latin is going to prevent the process of absorption alluded to, supposing that process to have already begun. As regards our practical institutions any change in the direction of strengthening the people in a sense of self-government should be welcomed. I have seen in Santa Fé municipalities almost exclusively composed of foreigners. In Buenos Ayres we have no municipality like those. I must admit that these provincial corporators do not speak with classic elegance the language of Cervantes and Calderon. Another reason adduced for maintaining the study of Latin is that our education having brought us to the present pass (the crisis) we must combat the materialistic tendencies of our youth. In my humble opinion, it is not ignorance of Latin that has brought about the present situation, and I do not think that the study of the Bucolics and Georgics would be of greater advantage to our legislators and people than the numerous agricultural magasines which circulate throughout the Republic. Since the days of Virgil agriculture has made great strides.

"All the arguments in favor of the study of Latin are too well-known to need recapitulation, but these arguments have been destroyed hundreds of times by educationists, thinkers and philosophers. In nine cases out of ten, according to Spencer, Latin is a useless study. If Latin must be studied to enter into a University, let it be studied in a preparatory school.

"For the foregoing reasons I do not include the study of Latin in the plan of studies for "colleges of special secondary education." "

THE MURDERER DEEMING.

The fuller reports now to hand give details of some striking incidents in the Melbourne coroner's court. Deeming, who is much thinner than he was, showed—or perhaps assumed would be the better word— an even more marked degree of callous indifference than before. He laughed and joked, now with his solicitor, now with young ladies in the gallery, through the whole proceedings.

The court having been constituted, the coroner stated that he had received a letter in a female hand and signed 'Lilly Most'. It was dated April 6, 1892, and ran as follows:

"I warn you that if you do not conduct the Deeming inquiry in an impartial manner it will be the worse for you. The poor fellow is not getting justice. Both you and the jury are prejudiced."

The writer went on to say that it was her intention to subscribe towards the prisoner's defence, and concluded by announcing that she would certainly take the life of the coroner in open court, notwithstanding the precautions which were being adopted to keep people out. The reading of this document, which was generally regarded as a silly hoax, caused considerable amusement in court.

When the coroner asked Mr. Lyle, the prisoner's solicitor, whether he wished to call any witnesses or address the court, Mr. Lyle replied, "Not at this stage sir." The coroner then directed the accused to stand up, but he took no notice, having, apparently, fallen asleep in his chair. A policeman at his side shook him, and he woke up with a start. The coroner, addressing the prisoner, asked "What is your name?" Deeming made no answer, but turned to his solicitor, and spoke to him hurriedly in a low tone. Mr. Lyle then rose and said, "He says he will not answer any questions." The coroner accordingly put the usual formal query to the prisoner, and Mr. Lyle on behalf of the accused intimated that he had nothing to say. Mr. Walsh submitted to the jury the case for the prosecution. He reviewed the evidence in detail, and contended that the case against the prisoner had been proved up to the hilt. The coroner again asked Mr Lyle whether he had anything to say on behalf of the accused. Mr. Lyle then rose and said: "This abnormal offspring of his mother has a defence which I hope I may be able to properly conduct. My first duty is to secure for the accused a fair trial, and so far as the proceedings have gone they have been conducted most decently. This creature Deeming has a defence that will open up a question which the whole English-speaking race must face, and which has already been dealt with by some European countries". With this obvious reference to the law of criminal insanity Mr. Lyle resumed his seat.

The jury was away half an hour. During their absense the prisoner laughed and chatted with those around him. Addressing Mr. Lyle, he asked "What are we kept waiting for?" Mr. Lyle explained, adding that in his opinion there was little doubt that a verdict of murder would be brought in against the accused. Deeming, nevertheless, continued to comment in a flippant manner upon the whole proceedings. He stared rudely at the ladies present, and addressed one who had been a witness by her Christian name. To another he called out that she was "a naughty girl," and as the jury's absence was prolonged he turned to his solicitor and laughingly inquired whether he should go and assist them in arriving at their verdict. The prisoner listened to the verdict without flinching. Then turning to Mr. Lyle, he remarked, "I could have done in two minutes what it has taken them so long to decide." The verdict having been read, the coroner added, "I shall now issue my warrant." The prisoner turned and exclaimed in a loud, insolent tone, "And you can put it in your pipe and smoke it." The public received the verdict in silence. The moment he found himself alone with his gaolers all his bravado deserted him.

The *Melbourne Telegraph* states that a fact has been brought to light which arouses suspicions that Deeming is guilty of yet another murder. Some time ago, when going by the name of Williams, he paid great attentions to a girl at Woolahra, a suburb of Sydney, who died suddenly. Her death was involved in much mystery, and remains unexplained to this day.

As Deeming has been fully committed for trial on the coroner's warrant he has not been again brought up before the magistrates and his name has accordingly been struck off the police court list. The prisoner slept fairly well last night, but the gaolers state that he is extremely pale this morning, and it is thought his health is giving way. He has frequently asked to be supplied with stimulants. It is reported, that Mr. Lyle, his solicitor, will ask for a prolonged adjournment of the trial, in order that time may be given to enable one or two more witnesses to come out from England to give evidence as to Deeming's state of mind when a youth.—*Reuter.*

The Press Association is informed that the Public Prosecutor will next Monday apply at Widnes police court for a warrant for the apprehension of the man Deeming, which, if necessary, can be served on the prisoner in Australia.

PROVINCIAL NEWS.

A frightful double murder was committed last Thursday in Villa Casilda, near Rosario. A man named José Vasquez had his throat cut from ear to ear and a woman named Peralta was strangled to death. The murderers are two men, one of whom appears to be a son of one of the victims. The murderers are in the hands of the police. The news of the crime has created consternation not only in Villa Casilda but in Rosario.

The forgery business just discovered in Rosario turns out to be a much more serious affairs than was at first believed. It seems that there are over $100,000 in false notes circulating in different parts of the country. The notes are of 5, 10, 20 and 50 dollars. The Rosario police on Thursday captured another of the forgers, and 6000 dollars in false notes were found on his person. The police have come to the conclusion that the forgery was conducted by a head house in Buenos Ayres with branches in Rosario, Cordoba and Santa Fe. The police hold all the details, which, of course, cannot be published, as many of the forgers have, no doubt, smelt a rat.

The grain-tax question is becoming very serious. The Federal Judge in Santa Fé declares himself incompetent to deal with the question, which has now come before the Supreme Court here.

Since the smash-up of the "great colossus of credit" the Provincial Bank, the idea of starting small banks in the principal camp towns appears to have taken root and in some cases to have thrived and bought forth fruit, as in Mercedes, where, thanks to the energetic initiative of Mr. Nicholas Lowe, there is now a thriving bank which collects the savings of the estancieros and advances money to stimulate healthy enterprise. The people of Dolores are now going to start a bank on the model of Mr. Lowe's bank in Mercedes, and in time we shall find these small banks in every town in the province. The crisis has struck the colossus, reduced it to pieces, and out of the debris honest enterprise is chiselling models on a small scale, destined to fill the void caused by the disappearance of the bank. Under sound and honest management these banks are destined to thrive, and it will be a very big concern indeed that will absorb them in the next "boom," whenever that may be.

We note in our exchanges from La Plata that there has been a municipal row in Brandzen. It appears that the Intendente was sent off about his business by a minority who met and dismissed the Mayor. This is not the first time the Mayor has been thus treated. The question has been brought before the Federal Judge, who will soon be compelled to open a Municipal Row Section in his court.

Our Santa Fé exchanges contain full particulars of the barbarous assault on Mr. Carreras's estancia, which we mentioned in our last. It appears that the Commissary of San Cristobal was not very friendly towards Mr. Carreras and seized the occasion of the state of siege to persecute him. The Commissary at the head of 60 men presented himself at the estancia house and stated that he wanted to search for firearms. Mr. Carreras was not in at the time and the Commissary said he would wait for him. However, Mr. Carreras did not turn up, and the Commissary thought the best thing to do was to arrest all the men and women in the place. The unfortunate people of the estancia were huddled together near a "noria" well and informed that if they attempted to escape they would be shot down. Subsequently the soldiers amused themselves flogging and even staking the prisoners. In the meantime the Commissary entered the house to look for firearms and found $700, which are now reported missing. The prisoners, 18 in number, were taken to San Cristobal and kept there 8 days. It is needless to comment on this outrage.

OIL FUEL.

Considering the limited duration of our coal-fields at home, if the present enormously increased demands for that fuel continues, it is satisfactory to note the progress of the methods of the application of petroleum as steam fuel. The spirit of economy prevails on all the railways now-a-days, and instead of throwing away refuse and waste products as used to be done in the past, many of these are profitably utilized.

The following, which explains how the engine works, will no doubt be of interest to many connected with railways in this country. A couple of injectors, each having a jacket through which steam is blown, to help in pulverising the oily globules, are laid under the footplate of the engine, and, by touching a tap, the feed to the furnace is put on and cut off in a fraction of a second. The effect on the furnace is wonderful, and the rapidity of the production of steam is a thing that can be scarcely believed without ocular demonstration. The consumption is so perfect that scarcely any carbon escapes through the chimney. The strain on the boiler is not increased in anything like the proportion that might be expected, owing to the use of a hinged cap attached to the exhaust, which gives a wider orifice when the stronger fuel is used. The tank for the fuel is at the back of the tender, where from 2 to 3 tons can be carried. The fuel is a kind of tar, and said to be thinned down by a little of what is called green oil, from gas works, more in winter, less in summer, but whether in summer or winter, kept in a sufficiently liquid state by a jet of steam passed through it.

As to cost an ordinary passenger engine burns about 3½lbs. of coal per mile, which with coal at 18s. comes out at 3¼d. On the engine, in the course of an ordinary working day, the consumption is per mile 12lbs. of coal and a gallon or 11lbs. of liquid coal, and in money it is 1¼d for coal and 1¼d. for tar etc., thus the combination works cheaper than the coal, and the longer the run the more oil is proportionately used, and the cheaper is the train mile accomplished.

On the Great Eastern Railway (England) there are some 12 engines working entirely under oil fuel, they are fitted with Mr. Halden's apparatus and 5 or 6 of the same engines run express trains daily from Liverpool Street (London) to Southend. Petroleum fuel can be either used alone or in combination with coal.

It is certainly a most unquestionably useful invention, and the reason why the railways here in B. Ayres do not go in for it is on account of the high tariffs of the Gran Oeste and Pacific Railway companies, so that after all the trouble of bringing it from Mendoza (where, I believe, there is an abundant supply,) it would come to a very little less only than coal bought in the Boca on board.

Here the average cost of coal is 42d. 86 per lb. while petroleum only costs 27d.81 per mile.

So far in England the oil fuel system for working of locomotives has not made very much progress, 1st because of the difficulty in getting the oil and the practical working, 2nd the temperature is too low to keep the liquid always in an easy flowing order, and for these reasons it is thought that it will be a long time before it is carried out on a great scale in England.

F. W. N. L.

VICTORIA CONVALESCENT HOME.

May 6th.

Mr. Editor,

You will excuse my encroaching on your valuable space, but I think we should let our fellow-men know the boon that is amongst us.

Some five weeks since I was stricken down with typhoid fever, and having heard of Dr. O'Conor's skill and the thorough efficiency of the nurses at the British Hospital, I decided to be taken there.

My case proved a very bad one, but the doctor skilfully got me over the crisis, and in four weeks I was sufficiently recovered to be drafted to the above Home.

Here I found a thoroughly English home, substantially built and containing first and second class drawing-rooms, dining-rooms and "patios" with glass casements.

There is a variety of bed-rooms, both upstairs and downstairs, all airy and spotlessly clean, with accommodation for eighteen persons in all.

The Home has an air of comfort and luxury, while the extreme quiet of its surroundings and sunny aspect make it the more conducive to convalescence; croquet and other amusements being provided for those so inclined.

The meals, of which there are four daily, are excellent, the food being well cooked and the appetite sharpened by the very invigorating air of the place.

The Home is only an hour's journey from the city, and is open to all desiring to recruit, and although situated quite in the country, for those desiring to follow the vagaries of the Gold Eagle, the STANDARD is always on the table, and the telephone at hand in the building.

I may say that I have now been here a week and my friends remark upon the great improvement in my condition.

I am of opinion that both the institutions I have mentioned are not sufficiently known (except by name) and therefore not appreciated as they should be.

Yours truly,
Convalescent

The Rev. J. W. Fleming B.M. will preach a Special Sermon to Young Men to night in the Scotch Church. The hour is 7.30.

The following telegrams are detained at the River Plate Telegraph Office 287 San Martin from alassio for spinetsi; Paris; R. M. poste restante. Bismingham; Advocats Lopez.

BILLS OF EXCHANGE.

Mr. Editor.

Will any of your commercial readers, who are experienced and really know and appreciate the following points, kindly answer them:

1st. Should all Bills, and renewals, given by customers for goods supplied be placed at once to their credit in the Ledger kept by the merchant, or should they be kept until maturity and the merchant only credit the account with the monies received in respect thereof, which monies get passed thro' the Cash Book in the usual way?

2nd. If these Bills, or any of them, have been discounted by the Merchant's Bankers and are duly met at maturity by the parties who signed them, what entries need be made?

3rd. Suppose again, the discounted Bills be not met by the signers, what entries are required?

The above points may seem simple enough to practised Accountants, but they are causing much confusion in the books of,

Yours obediently,
A Young Merchant.

CAB-FARES.

May 6th.

Mr. Editor,

You mentioned some time ago in your valuable paper how the cab-drivers sometimes impose on ladies.

The other day I took a coach at the Plaza, had it about two hours and a half, and paid the man 5 dollars, which I knew was more than he had a right to claim. He actually refused the money and wanted 10 dollars. Then he reduced it to 8 dollars.

Of course I would not pay him; so the "black man at the corner" came up and he, too, advised me to pay what the cabman asked, and was most insolent.

Happily a commissary just passed at the time, and arranged the matter by telling Mr. Cabby he only had a right to claim 3 dollars 50 cents.

Do you not think something ought to be done to prevent these annoyances, as they seem to be repeated too often? For instance, cab-drivers ought to be obliged to keep a bill of fare in their carrisge and to have a price for one and all.

EDITOR'S TABLE.

We have all the particulars about our coming colleague the *Unloader*. They will be found in another column.

In reply to 'A Subscriber' we beg to say that the Espeleta Meat Factory is still working, but we are unable to state how many hours per day.

From Gualeguay a friend writes:—

"Dear STANDARD,

"A Jockey Club has recently been re-established here, and it has issued the programme for races to be held on the 9th of July. There is also a meeting on the 25th of May, but so far no programme. Things in Gualeguay are looking up considerably, and the camps right on to Parana are in A 1 condition. Estancieros report good results, and the increase in wheat-growing is very considerable. The Entre Riano Railway is working well, and great credit is due to those who have just taken it over, for the many improvements already recognised by the general public."

The Buenos Ayres Football Association Club will play the Rosario Railway Athletic Club to-day at Flores old Polo ground. The following will represent Buenos Ayres: Rios, T Wilson, F Wilson, Hughes, Corner, Woolley, Macadam, Knox, Gordon, Murphy and Vargas. Kick off at 1 p.m. sharp. Players are requested to come punctually, as some of the opposing side have to return to Campana by the afternoon train.

The Deputies of the Nation met yesterday. Deputy-elect R. Varela called on the "Comision de Poderes" to inform the House as to the elections in Buenos Ayres, Tucuman, Salta and Jujuy. After a "cuarto intermedio" the Committee asked for more time for the consideration of the Jujuy Election, which was granted. The Deputies for Salta, Messrs. Chavarria and Gomez were admitted and took the oath. There was no time for the Committee to report on the Buenos Ayres election, the House deciding to meet on Tuesday next to consider it.

The team representing the Lomas Academy Athletic Club in the football match to-day at Flores is as follows:—A Anderson, back; C W Reynolds, B W Kennard, T M Lees, three-quarters; C F Kennard, F H Jacobs, half backs; G C Kennard (captain), L Corry Smith, F Corry Smith, E W D Hannay, J D Frost, A Leslie, W Leslie, H Hemans and J F Kahl, forwards.

There is a notice in another column announcing the general meeting of the subscribers to the Victoria Convalescent Home for Wednesday, the 18th inst.

The recent trip home of the Nord America was so exceptionally rapid, that, according to a private telegram, a number of passengers who disembarked at Barcelona, breakfasted in Paris on the 5th in the morning, which reduces the voyage to only 15 days.

The programme issued by the Jockey Club for to-day's races at Palermo is very good and racing men can rely on a splendid day's Sport. Our selections are:—

Premio Reconquista—La Mora or Cotopaxi.
" Perseverancia — Estoque or India Muerta.
" Progreso—Stud Las Ortigas.
" Luchadores—Mudo.
" Emulacion—Anibal.
" Celeridad—Cabula or Maipu.

Healthy people will agree with our esteemed colleague the *Southern Cross* in the following plea which it makes for open tram cars all the year round. Except on a thundering wet day or night, there is a strong case, from a sanitary point of view, in favour of the Open Car; but we fear it will be difficult to convince our weak-chested population of the fact:—"The public were horrified this week by the appearance in the streets of the ugly, ill-ventilated boxes for the conveyance of humanity—the hermetically sealed tramcars. We are threatened with the continuance of these vehicles for 6 or 7 months. It is said that certain persons are preparing a petition to the Municipality to allow the open tram-cars to run all the year round. It is the only way to preserve the population from yellow fever, small-pox, diphtheria, and all the plagues of Egypt."

Madame La France has just inflicted a pretty severe snub on our sister Republic of Uruguay. She has refused to receive or have anything to do with Mr. Kubly y Arteaga, the new B. O. Minister recently sent to Paris. Even before his arrival there the French Minister of Foreign Affairs put his veto on the new Envoy, whom he knew formerly in Spain and Paris, both in public and private life. France will only keep a Consul General in Montevideo for the future.

Another awful crime in Rosario. A man's throat cut and a woman hanged, by her own son and an employee of the male victim!! When are these horrors to cease in the land?

The last of the torpedo boats built in England for this country, the Commodore Py, left Rio on Friday and will be here to-morrow.

The humane offer of the Asilo Naval to place life-buoys, ropes and other life-saving apparatus in the Madero Docks should be accepted by Government without more ado, as almost every day some unfortunate finds a watery grave in these unprotected docks.

We beg to thank Messrs. Cassels and King for a birthday present of Horsford's world-renowned Baking Powder, which, like good wine, requires no bush from us, as it is known to every housewife in the civilized world.

There is another political rumpus in one-horse Catamarca. "Dos contra uno"; the Executive and Deputies against the Senate. It's not a fair fight. Send up an Interventor to help the poor Senate.

President Pellegrini's second reception on Friday night was not so well attended as the first. Some thirty Senators and Deputies paid their respects to the Chief Magistrate and retired early.

That eternal Mataderos question was again the bone of contention at the meeting of the Corporation on Friday. It was finally condemned, hanged, drawn and consigned to permanent quarters in the "archivo." The public feel greatly relieved at this definite ending of the shady matter.

A good thing, attributed rightly or wrongly to Mr. Oscar Wilde, is going the round of London dinner tables. Oscar, so the story goes, was once profoundly bored after dinner and much irritated at the tardiness of the hostess in leaving the table and making way for the cigarettes. Suddenly some remarked that a lamp on the table was smoking. "Happy lamp!" said Oscar, and the hostess took the hint.

It is said that all the new applicants for Professorships in the National College will have to pass a competitive examination. The examiners will be General Mitre, Dr. Vicente Fidel Lopez, Dr. Dardo Rocha, Aristóbulo del Valle, Lucio Vicente Lopez, Miguel Cané, Arata, Kiley, Basavilbaso, Alcorta, Malaver, Holmberg Berg, etc., etc., Engineer Valentin Balbin is still first favourite for the Rectorship.

That miserable Bateman Legacy is again "en evidence," and "morose" debtors to the old Company are being badgered to death by the dogs of law. Our great-grand-children and generations after them will feel the effects of the B.L: in fact we'll lay odds that it will turn up in some shape or other on the Last Day.

A good many worthy citizens appear to have been hurt in the "hurto" line yesterday, as we find the following sums in "subtraction" recorded. From Dr. Hugo Bunge $2500. From the Municipality $4000. From Rugero and Boss; $1500, besides some minor amounts from minor people.

The military display on the glorious 25th is to be grander than ever. Those pets of the public, the Volunteers, will take part, and the whole force on the ground will be 4000 men, commanded by General Luis M. Campos. The review will take place in Palermo Park.

The students of Magdeburg University do not like the recent law that deprives them of their beer to a certain extent, so they posted last month the following lines on the walls of their "Alma Mater":—

«Qui bene bibit bene dormit;
Qui bene dormit, non peccat;
Qui non peccat, bonus homo est.
Ergo: qui bene bibit, bonus homo est.

The *Diario* has hit on a better and funnier way of describing how things are always done in this country than the old "cart-before-the-horse" aphorism. Our esteemed colleague says:—"Such is the way in which everything is done in this blessed land

Hayward's Paste Dip
For the CURE of SCAB
AND DESTRUCTION OF ALL FILTH INFESTING THE SKIN OF SHEEP AND LAMBS.

Time, Labour and Money saved by its use.
Messrs. Moore & Tudor, Maipu 163, B. Aires.
Chascomus, March 23rd 1891.
Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to its EFFICACY AS A DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed)
JOHN KELLIE.
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

ON 'CHANGE.
Friday, May 6.
Affairs were very stagnant in the gold market this morning, but there was a suspicion that the bears had run 'short' of the precious metal for to-morrow's settlement. Thirteen thousand ounces changed hands at the first ring; the price opened at 53.70, rose to 53.90 and closed at 53.80, between buyers and sellers, say 230¼ o/o premium. Sovereigns were very dull; only three hundred were sold at 16.65 and 16.70, say 231¼ o/o premium. The speculation ruled very dull all morning, but there was an undercurrent of firmness in business. The shrewd ones at the ring believe that the situation is ripe for a bullish campaign, as gold has fallen very suddenly and exchange remains very weak: the majority, however, believe in a falling market and are still operating for a fall. Much importance is attached to the effect of produce gold, and the produce season this year will probably extend far into the winter months: heavy quantities of wool and grain remain to be shipped, and there are reasonable prospects of activity up to the month of August.
Patriotic Bonds were dull and weak; they opened at 59.90 and closed heavy at 59.40. Catalinas were done at 6.90 for cash and 7.20 for the end of June. National Cedulas A paper were quoted at 98. La Plata Cedulas were at a standstill; a few thousand Provincial E were sold at 29.30 and 29.70. The falling-off in the Cedula business since yesterday is remarkable.
Exchange remains very quiet. It appears that the French mail took a very heavy amount of exchange both in francs and sterling. There can be no doubt that the market was swept clean for the French packet. Discounts are more easy at present. Some Chilian exchange bills were done to-day at 48¼d.
The following is a summary of the business effected in stocks and shares at the first ring to-day:—
Ounces—
For cash.... 11,829 at 53.70-80-90 - 80
Sovereigns—
For cash.... £300 at 16.70-65-70
Patriotic Bonds—
For cash.. 60,900 at 59.90-80-60-50-40
Catalinas Mole—
For cash.... 700 at 6.90
June 30..... 500 at 7.20
National Hypothecary Cedulas—
For cash..A paper 5,000 at 98
Provincial Cedulas—
For cash..F 23,650 at 29.30-70
The Italian steamer Nord America, ex-Stirling Castle, made the run from Montevideo to Barcelona in sixteen days. She arrived on the 1st inst. at Las Palmas and yesterday at Barcelona, having left Montevideo on the night of the 19th ult. No other steamer on the River Plate route has done the distance in such a short time, but this run does not break the Nord America's record when she began to run on this route.
Advices from the Minas department, in the Province of Cordoba, report most satisfactory progress in the working of the many and valuable mines of that district. Of late many new mines have been started with excellent prospects; the old mines are giving fair results. Nearly all these mines are essentially "galena" ore; in several places 200 ounces of pure silver to the ton and 75% lead. Sooner or later the Minas department will become the most profitable mining district of the Republic. We have seen samples sent down to the Mining department here of exceptional richness, and we hear that the ore is near the surface, whilst the mines can rely on plenty of water and fuel in their neighborhood. Before long a branch of the Tucuman-Cordoba railway will run into the very centre of the Minas department.
The well-known Buenos Ayres and Montevideo firm of L. B. Supervielle and Co. has been dissolved. Both assets and liabilities remain in charge of Mr. L. B. Supervielle, under the style of L. B. Supervielle, Banque Francaise. Mr. George H. Morrison will represent the new firm in this city.
Messrs. Luis, Henry and Gustave Huser have joined in partnership to work the vinegar factory in the Calle Lavalle No. 2699. The firm is under the style of L. & H. Huser.
Mr. J. J. Rodriguez, estanciero of the Nauquen territory, was welcomed to-day on his arrival from Chile; also Mr. Arestizabal, a well-known Chilian capitalist of Santiago. Both report the cattle market in Chile very favorable to the Argentine estanciero; n

formed the police that underground work is going on under Congress Hall. One of the portly Congress porters, it is added, has heard on several nights past suspicious subterranean noise. Furthermore, anonymous threats have been received by several members of Congress, and considerable alarm is the result. The whole affair sounds like a flight of fancy or a hallucination of one of the porters.

Minister Zapata's report on home affairs, it is said, has a lengthy and interesting chapter on National railways, more especially guaranteed railways. The Minister's opinions in the matter are well-known; so are those of the old members of Congress, and it may happen that the railway companies will be a favorite topic of discussion this session.

The arrivals of sheep at the Tablada were above the average this week. The arrivals to-day exceeded 4000 wethers, nearly 5000. The market ruled weak. Five 'tropas' were sold, at $5.50 for good class, $4.20, $4.30, and $4.50 for middling qualities. Fat animals are no longer so numerous.

The Camara de Comercio has been organized as follows:—

Antonio Lanusse—Chairman.
E. Lalanne—Vice do.
B. Peña—Secretary.
J. Arabehety—Treasurer.
Directors—F Devoto, N Duclau, S Capdepont, W Garcia, M Miraut, Borde, E Cafferata, M Repetto, J Miguaguy, M Solanas, E Lanusse, J Boneo.

The Argentine cruiser 25 de Mayo arrived at Montevideo this morning at dawn; she is expected here to-morrow with the remains of the late Argentine Commissioner, Sr. Pico.

A correspondent sends us the following:—

"The following from the *N. Y. Bulletin* is of interest:—

"The total of all mineral productions in the United States from 1880 to 1889 inclusive, reaches the enormous sum of $4,687,000,000. But of this amount the precious metals contribute but a small part; gold for the ten years counts for only $330,000,000, and silver at its coining value counts up to only $505,000,000, for the same period.

"Coal and iron are the two largest items. The mine value of coal being $1,517,000,000; 675 million tons of bituminous coal and 342 million tons of anthracite mined in ten years.

"Iron at the Philadelphia price is found to be $957,000,000.

"The total value of all minerals produced in the year 1890 reached the unparelleled total of $652,000,000. This sum is an increase of nearly $300,000,000 over the total value of all produced during the year 1880.

"The gold and silver produced in 1890 is figured at less than one-sixth of the value of the grand total of 652,000,000, or not far from 100,000,000. Compared with the grain crops of 1891, we reach the following results:—

"The total value of the wheat crop of 1891 was $513,000,000, or a little less than $140,000,000 less than the total mineral production of the same year; while the corn crop was estimated at $836,000,000, or $184,000,000 more than the total value of mineral production for the year."

So far the *Bulletin*. While these surprising figures show us the wonderful development of the resources of our northern neighbor, they also cause us to see more clearly wherein lies the salvation of our own country. Argentina may not be blessed with immense mineral deposits of all kinds, but no country exists where the agricultural possibilities are so great and seemingly so little appreciated. It is not a mere fancy to picture for the future of this Republic a prosperity no less brilliant than the present "development in the States."

A rather curious case has arisen over the sale of a property by the Mortgage Bank. The property in question having fallen into arrears with the bank, the latter foreclosed and sold it by auction, the buyer being Mr. P. A. Garland who paid $500 as seña. On requesting the "escrituracion," however, he was met by a statement that the bank did not intend to go on with the sale, it having come to the knowledge of the board, that the original mortgager had sold the land to a company who had built thereon a manufactory worth $150,000, and were prepared to pay off the arrears. The judge held with the bank's lawyer that the circumstances were sufficient to annul the auction, but he ordered the bank to pay the costs of the suit.

Nelson Line steamers sailed this week—

Highland Chief, with—
28,011 carcases frozen mutton

Rio Segundo Brewery.
The Stout and Ale brewed at this Brewery are absolutely pure, they contain less alcohol and acidity than the imported brands and are recommended by the most eminent Physicians of the country. Both Ale and Stout are carefully pasteurized, thus preventing loss from excessive fermentation, and preserving them in good condition for an indefinite period.
Stout in barrel for draught
Do in dozens of half bottles
Pale Ale do do do ¼ and ½ bottles.

NEW ADVERTISEMENTS

THIS IS THE LAST week left you to take advantage of our sales at 20 o/o discount
This offer was made in Good Faith and is being carried out, as can be attested to by those who have taken advantage of it the first week
If you need anything in our line you still have this week in which to save the 20 o/o
This offer applies to lamps, gas and oil stoves, chairs, children's cribs and beds, folding beds, baby carriages, woven wire mattrasses, cairos, desks, type writers, kerusene oil, Butterick's paper patterns, Brainard and Armstrong's sewing and embroidery silk, and in fact everything we have in the store, no matter in what department.
This offer will positively not remain open after May 15th

CHARLES OLMI

CHARLES OLMI
A gorgeous, striking and imposing lot of furniture from Paris.
The best in this Republic.
Bronzes and genuine works of art. The oil paintings are simply beyond praise. The superb palace in which this furniture, confided to me for sale, is, should be visited, and I invite the intelligent public to deign to inspect its beauties and the works of art to be sold, without reserve.
Superb drawing room Louis XIV style. Sumptuous study. Regal "sala." Notable dining room. Three bedrooms. Pictures, Bronzes, marbles and artistic paintings. Carriages, horses, and cellar stocked with the choicest wines.
This auction is bound to fasten the attention of everybody, it is so exceptional. I declare, without the slightest hesitation, that the furniture I am going to sell is exceptionally
REGAL,
and as such I recommend it to the public, as I never praise articles that do not deserve it. Everything will be knocked down quickly to the highest bidder, and this is the "sine qua non" condition on which I undertake auctions.
On Tuesday May 10th
at noon
I will sell at public auction the costly furniture in the residence of
Dn. Guillermo Armstrong
1635--JUNCAL--1635
(between Montevideo and Rodriguez Peña) who is moving to La Plata.
I abandon the difficult task of describing the value and beauty of each article, as each one is worthy of special mention. A full Catalogue is being drawn up and will be ready in my Mart 565 Piedad, on Friday 6th inst. The house itself can be inspected from an early hour on Sunday the 8th instant.
I am bound to make special mention of a superb Steinway perpendicular piano of special shape and the largest size made. It is a sheer impossibility to do justice to the carpets, the dazzling gasaliers, the costly hangings, all from the best workshops in Paris.
TO SUM UP
The whole is something extraordinary and complete, and I can only beg of the public to come and see it, awaiting their verdict on this princely mansion with full confidence
1635--JUNCAL--1635
(between Montevideo and Rod. Peña)
On Tuesday May 10th
at noon
On View from Sunday 8th
Catalogues on 6th

FREE PASSAGES

TO

CHILE.

Those who wish to go to Chile can, on application at the Chilian Legation, No 1249 Calle Cerrito, from 2 to 4 o'clock p m, obtain free tickets to the ports of Talca, Iuano and Valparaiso, and to the cities of Concepcion and Santiago, on the following conditions:—

Certificates from those in whose employ they may have been, or from the workshops in which they have worked in the Argentine Republic, setting forth the kind of work in which they were engaged, and how they did it

Proof of their competency or preparation for work as carpenters, cabinet-makers, blacksmiths, carriage-builders, tinsmiths, shoemakers, tailors, saddlers female cooks, dressmakers, painters, miners, cheese and butter-makers, vine growers, farm hands, and for those general industrial or rural occupations known in the country by which a man, by his individual labour, can make a living.

These Free Passages will only be given to those in good health, between twenty and forty years of age, and who first fulfill the stipulated conditions.

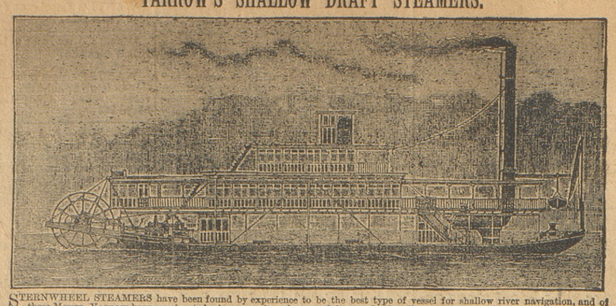
YARROW'S SHALLOW DRAFT STEAMERS.



STERNWHEEL STEAMERS have been found by experience to be the best type of vessel for shallow river navigation, and of these Messrs. YARROW have constructed a large number of successful examples for all parts of the world.

Vessels on this system are constructed, when required, to draw as little as 6 inches.

Messrs. YARROW lately built the sternwheelers "Mosquito" and "Herald" for the British Government, for service on the Zambesi.

They were constructed in floatable sections (capable of shipment), which were simply bolted together, avoiding thereby the costly and difficult process of rivetting up and launching.

For full particulars apply to—

YARROW & CO., Shipbuilders,

POPLAR, LONDON.

COMPANIA TELEGRAFICA

DEL

RIO DE LA PLATA

287-SAN MARTIN-287

Aviso al Publico

Al comunicar una rebaja de veinticuatro (24) centavos oro por palabra en sus tarifas actuales para Estados Unidos, Europa etc., las empresas interesadas hacen saber al publico que la comunicacion VIA LISBOA tiene inmejorables ventajas que ninguna otra puede ofrecer por tener cables duplicados, faltando para completer su duplicacion entre Europa y Buenos Aires, solamente la seccion entre Santos y la frontera Uruguaya, que quedará concluida en pocos dias mas, asi es que la correcta trasmision y la rapidez están aseguradas.

Es posible que la "VIA GALVESTON" ofrezca igual rebaja, pero no con la idea de favorecer al publico, o de competir con la "VIA LISBOA" en la correcta trasmision y la rapidez, sino para granjearse el favor del publico, asi lo ha comprendido el comercio que sigue favoreciendo esta compañia por ser la que ofrece mayores seguridades y ventajas.

IMPORTANTE REMATE

De 100 hectareas de riquisimo campo en Cañuelas.

A solo 20 cuadras de la Estacion. Todo alambrado y dividido en dos grandes potreros; cruzado por el camino de Cañuelas a San Vicente, alambrado por los dos costados, con una poblacion techo de fierro y material, un jaguel, laguna permanente.

Parte de los reputados campos conocidos por la Cabaña

"La Nueva Caledonia"

Campo riquisimo; algo excepcional, inmejorable para invernada, agricultura, etc. A las puertas de la Capital

Con la infima base de $140 la hectarea.

SUMAMENTE BAJA.

Hay interesados en arrendarlo a razon de $20 hectarea.

¡Soberbia Renta!

El dia Viernes 20 de Mayo

a las 2 p.m.

En nuestra casa Alsina 480 y 482, remataremos por orden terminante de su dueño, este soberbio campo, demasiado conocido y reputado para entrar en apreciaciones a su respecto; alambrado con postes cada 10 metros, con varillas de fierro intermediarias y 7 hilos de alambre. Los interesados que quieran visitarlo pueden hacerlo cualquier dia preguntando en la Estacion por el campo de Elia.

Linda con Luis Barreda, Centro Agricola Santa Elena de Martin Bcneo y Juan Macclymont.

Llamamos la atencion de la gente de dinero sobre este excepcional remate de 1,000 hectareas de campo tan rico, tan bien ubicado, tan barato, y que produce renta exorbitante.

Por planos y mas datos a nuestra casa Alsina 480 y 482.

Todo comprador abonara 5 o/o de su compra al firmar boleto.

Por los mismos

De un gran Establecimiento de Campo.

En la Pampa Central.

20,000 hectareas alambradas con buenas poblaciones, jagueles etc. 3,000 vacas mestizas Durham, 3,000 ovejas al corte, 600 yeguas. En nuestra casa Alsina 480 y 482.

El Martes 17 de Mayo

a las 2 p.m.
